education and advocacy resources

YOUR MICHIGAN NODE PARTNERSHIP

Community Mental Health Association of Michigan is the state association representing the state's public Community Mental Health (CMH) centers, the public Prepaid Inpatient Health Plans (PIHP) public health plans formed and governed by the CMH centers, and the providers within the CMH and PIHP provider networks.

CMHA was named the Michigan partner for the Substance Abuse and Mental Health Services Administration (SAMHSA) Great Lakes Mental Health Technology Transfer Center (MHTTC). This collaborative partnership between CMHA and MHTTC ensures that our members, partners, and persons served have access to on-line resources, webinars, and face-to-face opportunities that address evidence-based practices for mental health disorders.

GETTING TO KNOW MHTTC

The Mental Health Technology Transfer Center Network is funded by the Substance Abuse and Mental Health Services Administration, designed to spread knowledge and resources from years of research regarding evidence-based practices that help support mental health efforts in an effective way. MHTTC's purpose, in partnership with CMHA, is to effectively disseminate education, training, and technical assistance resources to foster the use of evidence-based practices across the mental health field by creating a collaborative network of supports and allies. Download the introductory webinar [HERE](#).

SAMHSA

SAMHSA is the federally funded agency within the Department of Health and Human Services that leads public health efforts to reduce the impact of substance abuse and mental illness on America's communities. In order to provide the support and resources to promote effective treatment and prevention efforts, SAMHSA has funded the Mental Health Technology Transfer Center (MHTTC).

CONGRATULATIONS MHTTC, ON ONE YEAR OF TEACHING AND LEARNING!

School is back in session, get caught up on the MHTTC National School Mental Health Curriculum and learn more about:

- Roles for educators and support personnel
 - Collaboration
 - Evidence-informed services
- Cultural responsiveness and equity
- Data-driven decision making

[ACCESS HERE](#)

School-based Mental Health Supplement

- The MHTTC and the National Center for School Mental Health co-developed manuals in order to provide practitioners with information on how to engage and plan in schools with a focus on mental health curriculum and effective initiatives in schools, you can find the manuals [here](#)
- The Great Lakes MHTTC provides training and technical assistance and support to school-based mental health activities, you can contact the school-based mental health project manager, Sarah Parker McMinn [here](#) with any questions.
