

# CCBHC Evidence-Based Practices

## Michigan Required Evidence-Based Practices

CCBHCs are required to implement Evidence-Based Practices (EBPs) and are expected to use interventions that are supported by empirical research and demonstrate positive outcomes in behavioral health. MDHHS has outlined Michigan specific CCBHC Demonstration EBP requirements. The table below provides resources to support implementation of required EBPs.

**\*For more information about required and alternative EBPs in Michigan, see the [Michigan CCBHC Handbook](#).**

## EBP Implementation Resources

### Overarching Resources

- **[Resource Guide for Implementing Evidence-Based Practices: A practical guide for CCBHCs](#)** - Designed to support CCBHCs in successfully implementing evidence-based practices within their clinics utilizing frameworks and principles of implementation science.
- **[CCBHC Evidence-Based Practice Reference Guide](#)** - Serves as a brief reference for CCBHCs on the most commonly required or implemented EBPs across CCBHCs — identifying the target populations, staffing considerations and training and fidelity resources available to aid them in implementation.
- **[Improving MI Practices \(IMP\)](#)** - A web-based platform tailored to support Michigan’s behavioral health professionals. IMP provides a wealth of free CEUs and other resources aimed at helping professionals better serve individuals in need and improving quality of care.
- **[Michigan Capacity Building Center \(CBC\)](#)** – Provides comprehensive training and resources to strengthen and expand behavioral health services statewide with the goal of helping all children and their families thrive.

## Michigan-Required EBPs

Required EBP	Resources	Potential Alternative EBP
<p><b>“Air Traffic Control” Crisis Model with MiCAL</b></p>	<ul style="list-style-type: none"> <li>• <a href="#">SAMHSA's National Guidelines for Behavioral Health Crisis Care Best Practice Toolkit</a> (pg. 16-17): Reviews the Air Traffic Control (ATC) Crisis Model</li> </ul>
